7. Bootstrap Media Objects
http://getbootstrap.com/components/#media

Media objects are listed items that are similar to thumbnails, but they operate in rows. Each media object is a picture on the left (or right) followed by a heading and a paragraph description on the side.

```
1    <div class="media">
2      <div class="media-left">
3        <a href="#">
4          <img class="media-object" src="...">
5        </a>
6      </div>
7      <div class="media-body">
8        <h4 class="media-heading">Media heading</h4>
9        ...
10     </div>
11   </div>
```

This code will give the following output:

64x64	**Media heading** Cras sit amet nibh libero, in gravida nulla. Nulla vel metus scelerisque ante sollicitudin commodo. Cras purus odio, vestibulum in vulputate at, tempus viverra turpis. Fusce condimentum nunc ac nisi vulputate fringilla. Donec lacinia congue felis in faucibus.

You can change the `media-left` class to `media-right` to change the image to the right side.

Exercises	
Exercise 1	Change the thumbnails in your Bootstrap website to media objects with switching image sides.
